Prepare Your Children For Better Living

The word etiquette originated in 18th century France under the reign of King Louis XIV for little signs he had placed on his palace grounds. Those signs provided instruction for proper grounds behavior. The French word for those little signs was *etiquette*.

Over time, the word *etiquette* has come to mean all of those little signs that help us know what to do and how to act in a variety of situations. More important, proper etiquette guides us and positions us for success as we interact with others. For most, and because of the world we grew up in, proper etiquette is almost second nature. For children growing up in a world that is becoming less formal and less civil every day, proper etiquette is all but lost.

With enrollment in Gavi's Charm School, you can change that. Hosted by Miss Mary and Miss Ann with five lessons per class, you will be giving your children or grandchildren a head start to better living and a better and more successful life!

Because Sometimes It's Fingers ... Sometimes It's Forks

Lesson 1 - Good Manners

- Body language (politeness)
- Art of setting a table
